16 Days of Activism against Gender-Based Violence

16 Days of Activism was started by activists at the inaugural Women's Global Leadership Institute in 1991 and is coordinated each year by the Centre for Women's Global Leadership. It's used as an organising strategy by individuals and organisations around the world to call for the prevention of elimination of violence against women and girls. It calls for global action to increase awareness, galvanize advocacy efforts and share knowledge and innovations to end violence against women and girls once and for all.
